

Architectural / Step & Pathway Lighting

LED Step Light

WHY-SF102 Series

A compact 3W LED step light delivering 140LM/W from die-cast aluminium housing with IP65-rated protection and a high-transparency toughened glass lampshade. Multi-voltage compatibility (DC12/24V and AC110-265V) and a precision optical distribution design make it suited to steps, pathways, decks, and marine applications requiring durable, glare-free low-level lighting.

3W

KEY FEATURES

Multi-Voltage Compatibility

Available for DC12 / 24V and AC110 - 265V supply, adapting to residential, marine, and commercial power environments without additional conversion hardware.

Die-Cast Aluminium Housing

Die-cast aluminium housing provides excellent heat dissipation, corrosion resistance, and anti-ageing properties for extended outdoor service life.

IP65 Dust & Water Protection

IP65-rated protection ensures reliable operation in rain, snow, humidity, and dusty outdoor conditions.

High-Transparency Toughened Glass Panel

Impact and wear-resistant toughened glass diffuser delivers uniform light transmission with long-term resistance to yellowing and cracking in outdoor use.

Precision Optical Distribution

Optical light distribution design produces soft, natural-like illumination without harsh glare, balancing brightness and visual comfort for pedestrian environments.

5-Year Warranty

Backed by a comprehensive 5-year product warranty.

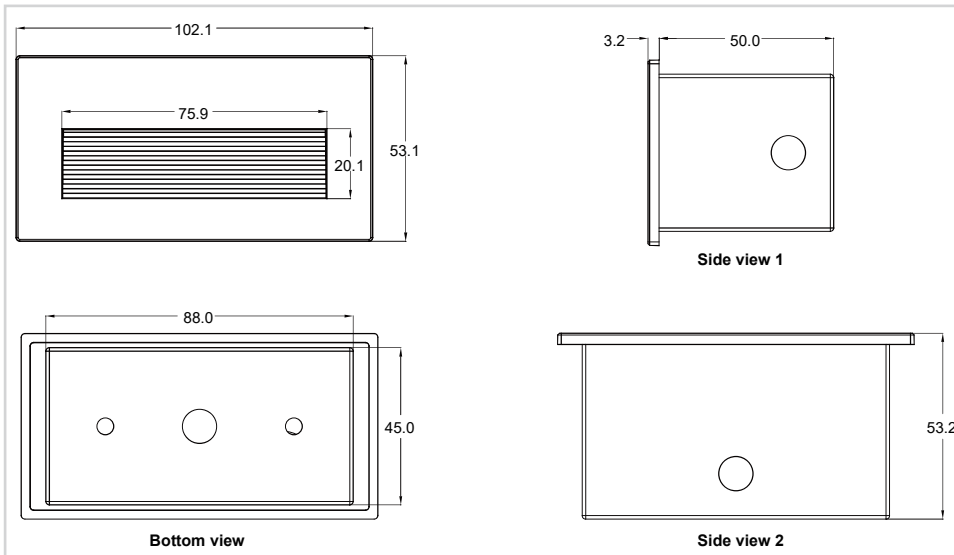

MODEL VARIANTS

Mode	Wattage	Luminous Efficacy	Size
WHY-SF102-3W	3W	140lm/W	155*56*50mm

TECHNICAL SPECIFICATIONS

CCT	2700K/3000K/4000K/5000K/5700K
Input Voltage	DC12/24V/AC110-265V
Housing Color	Black/White
Housing Material	Aluminum
IP Level	IP65
Warranty	5years
